Professional Summary

Results-driven Software Developer with expertise in software design, development, and integration. Over 5 years of experience in IT, including system integration, technical project coordination, and API development. Strong foundational knowledge of mobile application development concepts, including Android frameworks, Kotlin, and Java. Adept at designing scalable applications, implementing best engineering practices, and optimizing system efficiency. Experienced in Agile methodologies, API integration, and cloud-based solutions. Passionate about delivering high-quality, user-friendly applications that enhance business operations.

Core Skills

- **Software Development:** Object-Oriented Programming (OOP), Data Structures, Algorithm Optimization, System Design
- **Mobile Development Concepts:** Android Development Lifecycle, UI/UX Best Practices, API Integration, Firebase, MVVM Architecture
- **Cloud & Web Technologies:** AWS, Node.js, PHP, MySQL, MongoDB, RESTful APIs
- **Project Execution & Collaboration:** Agile (Scrum/Kanban), Version Control (Git), Technical Documentation, Team Leadership, Stakeholder Communication

Professional Experience

System Integration Project Lead / Implementation Project Coordinator

Canadian Urban Transit Association | Mississauga, ON | Oct 2024 - April 2025 (Contract)

- Spearheaded CRM database management, driving data accuracy through systematic cleanup, updates, and reporting.
- Led end-to-end implementation and customization of WordPress sites, enhancing user experience and site functionality.
- Successfully integrated APIs to optimize website performance, resulting in a 20% improvement in system efficiency.
- Managed payment gateway integrations, streamlining financial transactions for members.

- Facilitated member engagement and onboarding, providing training to internal staff on CRM tasks.
- Collaborated with cross-functional teams to develop scalable web solutions, meeting project timelines and objectives.

Implementation Engineer

Trufla Technology | Calgary, AB | March 2022 - May 2024

- Directed technical tasks for product implementations, collaborating with product teams to ensure smooth deployments.
- Enhanced client onboarding by troubleshooting and resolving configuration issues, reducing setup time by 15%.
- Provided technical training to offshore support teams, improving response time and customer satisfaction.

Technical Support Engineer

Trufla Technology | Calgary, AB | April 2021 - March 2022

- Provided Level 2 technical support for mobile and web applications, debugging system issues.
- Assisted in mobile application performance optimization and troubleshooting API-related issues.
- Maintained documentation and conducted knowledge transfer sessions for team efficiency.

Corporate Manager

BarBurrito Restaurants Inc. | Toronto, ON | Feb 2020 - March 2021

- Managed operations and supervised a team, optimizing staff performance through effective training and scheduling.
- Enhanced customer experience by resolving inquiries promptly and implementing service improvements.

Education

Post Graduate Certificate in Mobile Application Design and Development
Lambton College, ON | August 2018

Bachelor's Degree in Computer Application
The Calcutta Anglo Gujarati College, IN | September 2016

Technical Proficiencies

- **Programming Languages:** Kotlin (Foundational), Java (Foundational), PHP, JavaScript, Node.js
- **Mobile Technologies (Concepts & Support):** Android SDK, Jetpack, MVVM, Firebase, Room DB, Retrofit
- **Cloud & Databases:** AWS, Firebase, MySQL, MongoDB
- **Development Tools:** Android Studio (Familiar), Git, JIRA, RESTful APIs, Postman
- **Agile & Collaboration:** Scrum, CI/CD, Code Review, Documentation

Additional Information

- Available to start in **April 2025** upon contract completion.
- Open to **remote or hybrid** opportunities; willing to **relocate** for the right position.
